School Assembly

Our school assemblies, which include our Acts of Worship, are an important feature of our school's life. They act as one of the main ways by which we create our positive reflective ethos and promote our values-based education. The complete staff make a tremendous contribution through their presence and active participation. Pupils are very aware that the staff, by their positive attitude, involve themselves in assemblies, acting as role models for the pupils to emulate. Our assemblies contain times of quiet reflection that enable pupils to develop the deepest values and aspirations of the human spirit.

Purpose of our school assembly include the following

- i. To develop a feeling of affiliation and unity among students.
- ii. To acquaint students with the school programmes more clearly.
- iii. To develop a sense of identity in students with the school.
- iv. To enable students to share their experiences, stories, anecdotes with others.
- v. To provide them training in good social behavior which is desired in public life.
- vi. To motivate students by positive reinforcement in the form of praise or rewards awarded in public.

The Miser and his Gold

An old miser lived in a house with a garden. The miser hid his gold coins in a pit under some stones in the garden. Every day, before going to bed, the miser went to the stones where he hid the gold and counted the coins. He continued this routine every day, but not once did he spend the gold he saved.

One day, a thief who knew the old miser's routine, waited for the old man to go back into his house. After it was dark, the thief went to the hiding place and took the gold. The next day, the old miser found that his treasure was missing and started crying loudly.

His neighbour heard the miser's cries and inquired about what happened. On learning what happened, the neighbour asked, "Why didn't you save the money inside the house? It would've been easier to access the money when you had to buy something!"

"Buy?", said the miser. "I never used the gold to buy anything. I was never going to spend it." On hearing this, the neighbour threw a stone into the pit and said, "If that is the case, save the stone. It is as worthless as the gold you have lost".

Moral: A possession is just as worthy of what it is used for.
